

# Sonda OPDO c/T° incorporado

## 20m (65.6')

SKU: HI 764113/20

---

### RESUMEN

---

The HI764113 is the replacement probe for use with HI98198 Optical Dissolved Oxygen Meter

### DESCRIPCIÓN

---

#### **Built Strong**

A robust ABS body and stainless-steel protective guard ensure durability when measuring in tough environments. With an IP68 rating, this probe is sealed against water and dust.

#### **Professional Level Performance**

The domed cap repels bubbles for better measurement sensitivity, providing a fast response time.

#### **Minimize Hassle**

With no additional membranes to change and no electrolyte needed, the opdo probe is ready to work right when you need it.
