

Sonda OPDO c/T° incorporado 20m (65.6?)

Description

Built Strong

A robust ABS body and stainless-steel protective guard ensure durability when measuring in tough environments. With an IP68 rating, this probe is sealed against water and dust.

Professional Level Performance

The domed cap repels bubbles for better measurement sensitivity, providing a fast response time.

Minimize Hassle

With no additional membranes to change and no electrolyte needed, the opdo probe is ready to work right when you need it.
