

Replacement Battery for HI801 – HI7408015

Description

HI801 iris Visible Spectrophotometer features a rechargeable lithium-ion battery that lasts for approximately 3,000 measurements. Lasting well over a day of use in the field there is no need to worry about the battery life while out working without a power supply. The meter can be quickly recharged with a dedicated fast charging adapter. HI7408015 is a replacement battery for the HI801.
