

HI7214-11 is a high-quality set of calibration standards that allows users to validate the performance HI7214 Pool Line Iron Checker® HC. The HI7214-11 includes one sealed cuvette for zero ppm Iron and one cuvette with a standard that is  $1.00 \pm 0.06$  ppm Iron @ 25°C. The calibration check set is produced in our state-of-the-art manufacturing facility using reagent grade chemicals in a temperature-controlled environment.
